EDUCATION

National University

Bachelor of Science in Information Technology - Specialization in Mobile and Web Applications

Expected 2027

TECHNICAL SKILLS

Languages: PHP, JavaScript, HTML, CSS

Frontend: Flutter, Bootstrap, .NET MAUI

Backend: Laravel, PHP

Database: MySQL

Developer Tools: Visual Studio Code, Android Studio, XAMPP

Design & Prototyping: Figma, Canva, Adobe Photoshop

PROJECTS

SK360 | Laravel, PHP, MySQL, HTML, CSS, JavaScript, Git, GitHub

- Developed a Laravel-based web application with features for managing system data, user interactions, and backend processes.
- Implemented and integrated database functionality using PHP, Laravel, and MySQL to support core system operations.
- Used Git and GitHub for version control, project collaboration, and managing the development workflow.

Happy Sprays | PHP, MySQL, HTML, CSS, JavaScript, PHPMailer, XAMPP

- Developed a full-stack e-commerce website for product browsing, customer accounts, and order management.
- Built backend functionality using PHP and MySQL, including customer authentication, order processing, and database operations.
- Implemented email-based OTP verification using PHPMailer and organized database operations through reusable PHP methods.

Inventory & Sales Management System | PHP, MySQL, PDO, HTML, CSS, JavaScript

- Developed a web-based system for managing products, suppliers, inventory transactions, orders, payments, invoicing, and deliveries.
- Implemented a centralized PDO-based database layer to manage data operations across multiple system modules.
- Developed role-based functionality for administrators and inventory staff to support organized system access.

Joiners.com.ph | PHP, MySQL, HTML, CSS, JavaScript

- Contributed to the conceptualization and research of a web-based platform designed to connect travelers with joiner tours and group travel opportunities.
- Helped develop the project's business model and system concepts, including its trust-first ecosystem, platform fee structure, and incubation escrow approach.
- Conducted user research and contributed to survey development to identify potential users' travel preferences, booking behavior, and expectations from joiner-tour platforms.

COURSES AND CERTIFICATIONS

Certiport - IT Specialist in Networking

2025

Basic Networking Infrastructure, Internet Protocol, Local Area Networking, Network Security, OSI Model, Wide Area Networks, Wired and Wireless Networks

Certiport - IC3 GS6 Level 1

2024

Communicate Effectively Through Digital Channels, Create Digital Content, Fundamental Software Concepts, Identify Etiquette Standards for Collaboration, Identify Threats and Security Measures In Digital Environments, Protect Digital Reputation and Identity, Use Online Search

ACHIEVEMENTS

CHED RAISE 2026 – Iloilo City 2026

2026

Team NU-AVE – Booth Presenter / Student Representative, representing National University Lipa in presenting the university's innovation showcase booth and discussing the project with visitors and participating institutions.

Breaking Enigma 2025 – National Hackathon Competition

2025

Team NU-AVE – Top 5 Overall & Top 2 Creative Industry Category (Residency Level), representing National University Lipa and advancing to the Residency Program of the national hackathon.
